

Myoswiss AG is a young and ambitious MedTech company that revolutionizes personal mobility. Originally spin-off from ETH Zurich, Myoswiss AG develops new solutions for people with restricted mobility. We want to help people outgrow themselves and offer them new opportunities for movement, which was unimaginable for many, before the existence of our product.

Mechanical engineer (M/F) – 100%

We are looking for

A structured, disciplined and organized person with strong analytical thinking and good communication and presentation skills, able to demonstrate systematic problem-solving, CAD design and concept testing.

Your tasks

- Product development from concept to production
- Further development of existing products and applications (ideally in mechatronics and textiles)
- Drive activities of design to cost, design to manufacturing, design to spec.
- Planning, implementation and documentation of experiments (life cycle tests)
- Development of technical solutions
- Creation of data required for technical documentation (bill of materials, drawings, etc)
- Being involved in the design of textiles parts, such as thermoformed parts, padding, webbings, straps etc.
- Participate in life cycle tests (Product Lifecycle Management)
- Be in contact with suppliers for purchasing, production, sales and external partners

Your profile

- Degree in Mechanical Engineering
- 5+ years of experience in 3D CAD, Creo Parametric, parameterized design, and design for manufacturing. Experience working in the medical field is a plus.
- Strong knowledge in mechanical manufacturing processes: milling, additive manufacturing, etc.
- Ability to analyse plastic injection molding tooling and design for plastic molding processes (vacuum casting and injection)
- Experience in the development and assembly of mechanical, mechatronic and textile systems
- Knowledge of plastics and material science. Experience in working with composite materials is a plus
- Knowledge in textiles (thermoforming, webbing etc)
- Fluent (written/spoken) English, German is a plus.

What we can offer you

- A challenging position in an open and dynamic company within an international environment.
- A long-term commitment and the opportunity to develop a rewarding career

Have we sparked your interest? Then we look forward to receiving your full application (cover letter, curriculum vitae, certificates) by email to careers@myoswiss.com or get in touch with Mr. Spyros Efthymiou (spyros.efthymiou@myoswiss.com) directly.
