

We are an ambitious MedTech spin-off from ETH Zurich whose goal is to improve the quality of life of people with movement impairments. We use state-of-the-art technologies that offer people new ways to be physically active. Our flagship product is the Myosuit: a lightweight and affordable robotic device that gives people an extra layer of muscle to improve strength and stability.

We are increasing our team to help more people benefit from our technology. For that reason, we are looking for a

Quality & Regulatory Affairs Manager in MedTech

As MyoSwiss' Quality & Regulatory Affairs Manager, you will be responsible for all regulatory issues, approvals, and audits. You will:

- Maintain and update the quality management documentation
- Report to the management on the performance and status of the QMS
- Participate in management reviews
- Carry out audits (internally and externally at suppliers)
- Initiate appropriate measures
- instruct and train employees in the QM system and support the product-relevant implementation of applicable legal requirements in cooperation with the divisional managers
- Keep up to date with all standards, regulatory requirements, and guidelines applicable
- Provide all necessary documentation for the registration of products with national and foreign authorities
- Be responsible for keeping technical files complete and up to date
- Be the main contact person for all divisional managers for quality-related questions

What you offer

- University degree in applied sciences or similar
- Experience in risk and project management of medical devices
- Several years of experience in quality management and regulatory affairs in a regulated environment

- Extensive expertise in the European and US regulatory environment for medical products and experience with the relevant authorization procedures
- Fluent in German and English, any other foreign language is an advantage
- Strong communication skills and an independent way of working

What we offer

- An exciting and stimulating working environment in a young and dynamic team from all over the world
- Highly dynamic work environment
- The unique opportunity to be part of an international growth strategy

Are you interested? We look forward to receiving your application! Please attach your CV and a motivation letter explaining why you are the right person for our team. Send your application to **careers@myoswiss.com**. Applications from employment agencies will not be considered.
